OIL GAS & MINING

Re: Revegetation and Supplemental Irrigation
Utah Fuel Company Skyline Mine

Dear Keith:

In a previous letter to the Division of Oil, Gas & Mining, dated March 5, 1992, I discussed the water rights held by Coastal States Energy Company (E1114, E1906), and the uses identified by these rights. Upon further review and discussion, the water use provided by Exchange E1906, will allow for supplemental irrigation, provided the use is mine related and within the mine permit area. Under these restrictions, changes to the existing right are not required.

Should you have any questions regarding the above referenced rights, please feel free to contact me.

Sincerely,

William A. Warmack

William A. Warmack
Assistant Regional Engineer
